## **VADs**

The VAD was made up of both men and women doing various jobs from nursing to orderlies, ambulance drivers, and many more roles. There was also a Military Hospital in Leighton Buzzard but there is no record in the Magazines of anyone from Wing working there.

In January 1915 the men were called up. G. Prime, W. Lloyd, T. Lloyd, W. Lloyd, F. Guess, F. Lovell and C. Hooker and where sent to Southampton. 'A letter from G. Prime announcing their safe arrival describes how they had at once been told off to assist in carrying 1,000 wounded men from ashore to the ship. These go either into Hospital there, or most of them, to the trains to convey them to various hospitals all over the country.'
